

COLLEGE OF ARTS & SCIENCES MAJORS AT A GLANCE

WHAT CLASSES WILL YOU TAKE?

In addition to your major coursework and University Core, students within the College fulfill “**College Requirements**” including:

- **Effective Communication:** College Writing or Public Speaking
- **Commitment and Consciousness:** a course in the University Core that addresses either Commitment to Diversity, Inclusion, and the Common Good or Global and Historical Consciousness
- **Language:** Bachelor of Arts (BA) majors will take courses in either Chinese, French, German or Spanish
- **College of Arts & Sciences Courses outside of major:** BA majors will also take 15 upper division courses outside of their primary major. This is a great way to explore different disciplines, broaden your academic experiences, and explore majors and minors

All majors in the College have recommended introductory classes that will give you an idea of what the major consists of. If you are considering a major or majors, talk with a College of Arts & Sciences Academic Advisor to find out the best intro classes.

STUDENTS IN CAS HAVE...

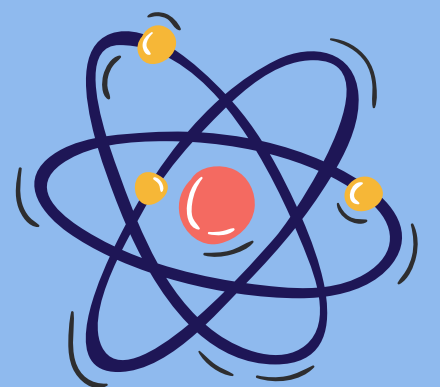

- Diverse career paths
- Critical, analytical, and creative thinking skills
- Many opportunities for hands-on research with faculty
- Access to internship programs for credit and multiple study abroad programs across the world
- Interdisciplinary coursework and projects that encourage collaborative learning and real-world application

WHEN SHOULD YOU DECLARE?

It is recommended to declare by your **sophomore year** to make sure you are on track with sequencing your classes, especially for science majors and research methods requirements. Be sure to work with your **College of Arts and Sciences Academic Advisor** to make sure you stay on track while exploring your options!

LIST OF MAJORS

Applied Mathematics
Arts Administration
Biochemistry
Biology
Cell, Molecular, and Biomedical Sciences
Chemistry
Communication
Organizational Communication
Ecology, Evolution, and Conservation Biology
Economics
English
Environmental Science
Environmental Ethics and Policy
Gender, Women, & Sexuality Studies
History
Human Biology
Mathematics
Media
Music
Philosophy
Physics
Political Science & Global Affairs
Psychology
Social Work
Sociology/Criminology
Spanish
Theater
Theology
