

COLLEGE OF ARTS AND SCIENCES

majors & careers

WHAT CLASSES WILL YOU TAKE?

In addition to your major coursework students within CAS fulfill "College Requirements" including:

- **Effective Communication:** College Writing or Public Speaking
- **Metaphysics:** Any metaphysics course offered such as Philosophy of the Mind, Self and Identity, Freedom and more
- **Language:** Bachelor of Arts (BA) majors will take courses in either Chinese, French, German or Spanish
- **CAS Courses outside your major:** BA majors will also take 15 upper division courses outside of their primary major. This is a great way to explore different disciplines, broaden your academic experiences, and explore majors and minors

All majors in CAS have recommended **introductory classes** that will give you an idea of what the major consists of. If you are considering a major or majors, **talk with a CAS program counselor** to find out the best intro classes.

Biology
Chemistry
Communication
Organizational Communication
Economics
English
Environmental Science
Environmental Ethics and Policy
International Languages -
(German, French, Spanish)
History
Mathematics
Music
Philosophy
Physics
Political Science
Psychology
Social Work
Sociology
Theater

WHEN SHOULD YOU DECLARE?

It is recommended to declare by your **sophomore year** to make sure you are on track with sequencing your classes, especially for science majors and research methods requirements. Be sure to work with your **CAS program counselor** to make sure you **stay on track while exploring your options!**

STUDENTS IN CAS HAVE...

- Diverse career paths
- Critical, analytical, and creative thinking skills
- Many opportunities for hands-on research with faculty
- Access to internship programs for credit and multiple study abroad programs across the world
- Interdisciplinary coursework and projects that encourage collaborative learning and real-world application
