- *A maximum of 12 semester credits of online coursework may be used towards prerequisite coursework and all labs must be in person, not online*
- *Science coursework must be taken within the last 10 years*

Additional Information

The ASCO has numerous internet resources available on their website for pre-optometry students. Most optometry schools require an OAT score for application. More information on the OAT can be found through the ASCO website. Information may also be obtained from the Pre-Health Professions Advisors.

In selecting schools to which to apply, pay particular attention to non-resident acceptance rates, total number of applicants, average GPA/OAT of admitted applicants, additional pre-optometry requirements, special programs or curricula, tuition cost, and location.
